Attachment 1

Performance Report-Local Government Grants

CHAPTER 1 – SECTION 306

TASK 1.1 COASTAL ZONE MANAGEMENT

Coastal Air Photograph Monitoring Project

Vantage Point Photography continued the aerial photography project, flying at low tides in July, August and September. By the end of September, they had flown 1,276 miles of shoreline finishing Mason Whatcom, Skagit and Island counties. In all, we have acquired an additional 5,500+ digital images in three different sizes (thumbnail, "web-sized", and large) along with each photo global position coordinates. Vantage Point is contracted with the remaining project funds to photograph an additional 175 miles of shorelines this spring ('02). We hope to complete the entire shoreline this summer with funds from next years CZM award.

Coastal Decision Tools

During the past four months, a GIS needs assessment was completed for Pacific and Gray's Harbor Counties, the Washington State Parks & Recreation Commission and the Southwest Washington Coastal Erosion Study. Meetings were held with staff from each of the jurisdictions or agencies, and follow up correspondence occurred via telephone and e-mail. The meetings were held to discuss how GIS data from the Southwest Washington Coastal Erosion Study might be useful for local planning applications. A final report was prepared to document the results of the past four month's efforts, and includes a proposed course of action to deliver products that address the needs of southwest Washington's coastal communities. Future work will continue to be financed through a CZM 306 Special Project entitled On-line Coastal Information in the FFY-01 Grant.

TASK 1.2 SHORELINE MANAGEMENT

SMA/GMA Mapping in the Coastal Zone

We have continued to convert historic Coastal Zone Atlas data to digital format. We have completed rectifying and digitizing the slope stability maps and have made these data available on cd to local planners. The coastal drift maps which include location and relative magnitude of bluff erosion and substrate information have been rectified for more than half of the coastal counties and this work continues. In addition we have scanned historic shoreline aerial photographs from the 1940s and created an html index map for easy access. This information is frequently requested by local coastal communities for analysis required in updating their SMPs and implementing the Critical Area Ordinances of their GMAs.

Task 1.3 Wetland Management

River Basin Characterization

Watershed planning assessments are progressing on the Kennedy-Goldsborough and Skokomish-Dosewallips watersheds.

TASK 1.6 PADILLA BAY RESERVE

Non-chemical Spartina Research and Control in Padilla Bay

Final Report is attached

CHAPTER 2 – SECTION 309

TASK 2.1 IMPLEMENTATION OF LEGISLATIVE CHANGES TO THE SHORELINE MANAGEMENT ACT

Post guidelines rule invalidation staff work has focused on:

1. settlement negotiations: principal parties involved in the guidelines lawsuit have agreed to enter into mediation (at the same time they preserve rights to further appeal). In December 2001 the parties began meeting with facilitators in an effort to settle on a path forward that will address issues of mutual concern.
2. working with the Attorney General's Office to appeal the SHB decision to Superior Court
3. staff and consultant preparation of draft guidebook materials designed to be available at such time as new guidelines are in effect
4. outreach in the form of:
 - direct technical assistance to local governments conducting shoreline inventory and assessment for SMP updates through Guidelines Outreach and Assistance Team efforts (made up of SEA technical and communications staff) - this is coordinated with those local governments receiving CZM 306 grants for update of their SMPs.
 - web-based development of a guidelines home page directing inquires on guidelines status, available scientific and technical information and related guidance
 - e-mail status reports to state resource agencies and interested parties
5. as a precursor to securing an ITS from the federal services, participation in OCRM's Demonstration Project: A Programmatic Biological Assessment and EIS for Washington State's Shorelines Guidelines

Coastal Zone Management
Washington State Department of Ecology
Local Grants – 2000-2001 Interim Semi-Annual Progress Report
Reporting Period 6/30/2001 – 12/31/2001
FFY-00

Recipient	Type	Project Officer	Comments
Bainbridge Island, City of Taylor Avenue Shoreline Access Project	CZM 306 G0100026	Sandra Lange Start Date: 7/1/2000 End Date: 6/30/2001	Project Coordinator changed as of 1/18/2001 from Lita Myers to Terry Ash Semi-Annual Report received dated 1/20/2001 Received Semi Annual Progress report 7/20/2001 Topographic and Right-of-Way Location Survey completed for Taylor Road End, working on issues of parking access, public dock use, and co-ordination with the National Historical Landmark citizens group Conceptual Plan finalized and final submittal received. The total project is not completed and the overall Memorial will take more time. The City did not use their total amount of funding, returning 5000 + dollars
Blaine, City of Maine Boardwalk Pre-construction Planning	CZM 306 G0100036	Barry Wenger Start Date: 7/1/2000 End Date: 6/30/2001	All tasks have been completed See Report submitted July 2001
Everson, City of SMP / GMA Update and Integration	CZM 306 G0100035	Barry Wenger Start Date: 7/1/2000 End Date: 6/30/2001	All tasks were completed in a timely and professional manner. See Report submitted July 2001
Island Co. / WSU Beach Watchers 2000-2001 Beach Watchers Volunteer Training Program	CZM 306 G0100002	Alice Schisel Start Date: 7/1/2000 End Date: 6/30/2001	Project completed June 30, 2001 See July 2001 Report
Marysville, City of Critical Areas Study for the N. Marysville Subarea Plan	CZM306 G0100024	Erik Stockdale Start Date: 7/1/00 End Date: 6/30/01	Project has been completed and grant agreements have been fulfilled. Final report dated September 2001, titled "City Of Marysville, Lakewood-Smokey Point Planning Area, Wetland and Stream Inventory".

Coastal Zone Management
Washington State Department of Ecology
Local Grants – 2000-2001 Interim Semi-Annual Progress Report
Reporting Period 6/30/2001 – 12/31/2001
FFY-00

Recipient	Type	Project Officer	Comments
Mukilteo, City of Ph.3: Shoreline & Critical Areas Plan & Regulatory Update	CZM306 G0100065	Bob Fritzen Davis Start Date: 7/1/00 End Date: 6/30/01	Grant agreements have been fulfilled Project completed see July 2001 Report
Pacific County Public Education & Involvement in Bio-Intensive Spartina Control	CZM306 G0100001	Perry Lund Start Date: 7/1/00 End Date: 6/30/01	Through the Columbia Pacific Resources Center, there have been several excellent newsletters produced, public workshops, landowner outreach efforts, and a field trip for public officials, the public, and agencies.
Port of Peninsula Residential Education – SMP Process	CZM 306 Pending	Randy Davis Start date: End Date:	Project terminated
Port Townsend, Port of Site Planning & Design for the NW Maritime Center	CZM306 G0100064	Jeff Stewart Start Date: 7/1/00 End Date: 6/30/01	Design team is near complete with state-of-the-art dock replacement just south of Point Hudson. All tasks on schedule.
Poulsbo, City of Oyster Plan Park Development	CZM 306A G0100076	Sandra Lange Start date: 6/11/2001 End Date: 11/30/2001	Federal project approval received June 11, 2001. Agreement is in for local signature as of 6/11/01. Worked with City, Ecology and Fish and Wildlife to complete necessary assessments and permitting, including HPA and Shoreline Permits Completed physical work at park except replacement of the pier and submitted final documents

Local Grants – 2000-2001 Interim Semi-Annual Progress Report
Reporting Period 6/30/2001 – 12/31/2001
FFY-00

Recipient	Type	Project Officer	Comments
Quinault Indian Nation Ph.2 Planning: Ocean Shores Marina Public Access Trail	CZM 306 G0100053	J.Sohneronne Start date: 7/1/00 End Date: 8/31/01	Project Completed See July 2001 Report
Snohomish County Snohomish County Marine Resources / A Community Outreach and Education Program	CZM 306 G0100034	Sharon Riggs Start date: 7/1/00 End Date: 6/30/01	The MRC identified locally important marine resources and issues, developed a brochure insert, assembled information on marine & nearshore topics, developed a website and created a multi-media presentation covering a broad range of marine topics. Through press releases, mailing lists, the website, and five public meetings, the MRC made contact with a large number of citizens. This grant is complete.
Snohomish, City of Snohomish River Bank Restoration Plans	CZM306 G0100021	J. Velikanje Start date: 7/1/00 End Date: 6/30/01	Project completed and payment made.
Sumner, City of SMP Comprehensive Update	CZM 306 G0100086	Randy Davis Start Date: 7/1/00 End Date: 6/30/01	Project is Phase I of the SMP update and includes preparation of a detailed shoreline inventory and a draft SMP. Project completed in November 2001. The recipient is pursuing review and comment by federal resource agencies of the inventory and draft SMP.
Willapa Harbor, Port of Tokeland Public Fishing Pier Refurbishment	CZM306A G0200075	Kim Van- Zwahlenburg Start Date: Pending End Date:	Construction has been completed after delays related to Corps of Engineers permitting and bad weather. Applicant requested and received an extension to December 31, 2001. Payment invoice has been submitted but release of the funds awaits our receipt of deliverables.
Woodway, Town of SMP Development	CZM306 G0100039	Bob Fritzen Start Date: 7/1/00 End Date: 6/30/01	The City has completed writing its Path B, SMP amendment. The amendment has been submitted for approval by Ecology.
